

# Title: Primo Oval XL 400 - Jack Daniel's Edition

## Description

The Jack Daniel's Edition Oval XL 400 ceramic grill is our exclusive ceramic grill that celebrates American ingenuity, quality craftsmanship and the independent spirit of grillers and barbecuers who share our passion for great food and extraordinary whiskey. It offers the largest cooking area and Primo's Patented Oval Design creates extremely high cooking flexibility and efficiency. Perfect as a primary grill or to complement your current gas grill, electric grill or smoker. Available as "grill only" for built-in applications in outdoor kitchens or with a variety of Primo Grill Tables and Cart options. Grill, bake, roast or smoke any food. Indirect cooking for baking, roasting and smoking requires the Heat Deflector Racks and Plates. The Jack Daniel's Edition Oval XL 400 is constructed of premium-grade ceramics, a cast iron top vent, easy-to-read thermometer that can be calibrated, two-piece reversible porcelain coated cooking grates and a stainless steel lower draft door. Made in the USA and comes with a Limited Lifetime Warranty backed by a 20-Year Guarantee on the ceramics.

Primo's Patented Oval Design delivers far more cooking flexibility than round ceramic grills by being able to simultaneously cook with two distinct cooking zones. Grill steaks on the direct side and roast tender foods like fish, seafood and vegetables on the indirect side at the same time without the tender food being overcooked and charred. Let's face it, most food is not round. The Oval Design creates an extremely efficient cooking space so you can cook more food at the same time.
